Action Sales has been our preferred vendor since my partner and I expanded L&L Hawaiian Barbecue to the mainland in 1999. Their immediate value and support for our business was clear. From architectural drawings to site selection support, construction coordination and foodservice equipment recommendations, virtually every aspect of opening our restaurants in the U.S. was assisted by Paul Cheung and the Action Sales organization.

It is the mission of L&L Hawaiian Barbecue to provide customers with the authentic flavors and experience of Hawaii and immerse them in the Aloha spirit during their visit to any of our restaurants. Action Sales has kept our objectives in mind with each restaurant we open. They immediately begin to deliver on our goals even before the restaurant open its doors. Consistently, Action Sales has coordinated the ordering of equipment, ensured it is shipped safely, delivered and installed to meet our construction schedules.

The team at Action Sales has a great relationship with our construction teams and site managers. Our restaurants enjoy the highest quality in the equipment selections made and continued service support year after year. From small wares to cooking equipment, food prep to refrigeration, Action Sales continues to provide an extensive range of products paired with exceptional service; we are honored to document this 11+ year history.

Mahalo (thank you) Action Sales! We appreciate your support.

Eddie Flores  
President  
L&L Hawaiian Barbecue
